How do you convert currencies?

Search up the current
exchange rate

If the exchange rate is 0.70, then 1 Canadian Dollar equals 0.70 US Dollar.

$$1 \text{ CAD} = 0.70 \text{ USD}$$

What about USD to CAD?

$$\frac{1}{0.70} = 1.43$$

$$1 \text{ USD} = 1.43 \text{ CAD}$$

1 CAD = 0.70 USD

How much is 10 CAD in USD?

$$10.00 \times 0.70 = 7.00$$

∴ 10 CAD is equal to 7 USD.

1 GBP = 49.15 TRY

How much is 21 British Pounds in Turkish Lira?

$$21 \times 49.15 = 1032.15$$

\therefore 21 GBP is equal to 1032.15 TRY.

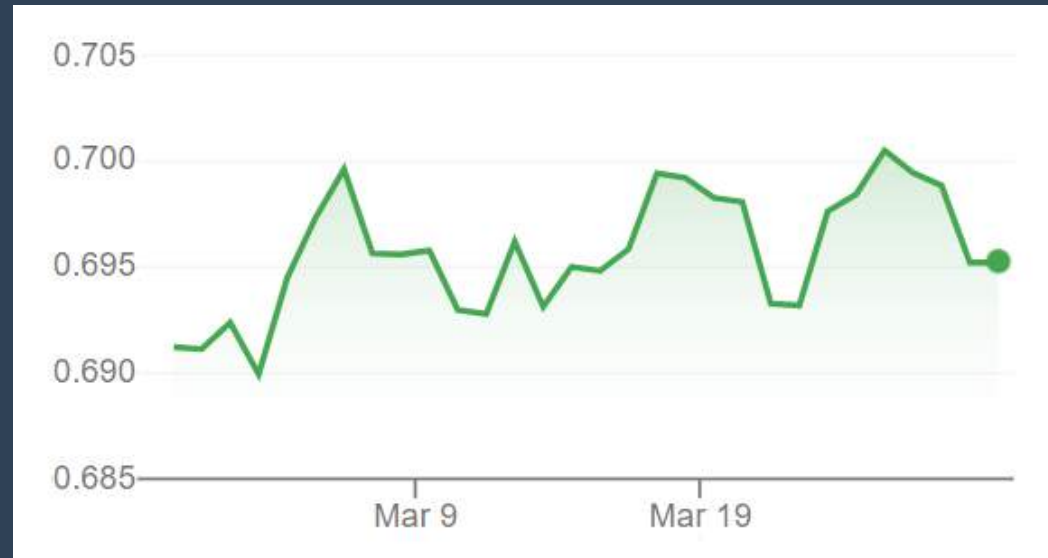

Which is the best deal?

Which is the best deal?

What affects exchange rates?

Exchange rate of CAD to USD during March

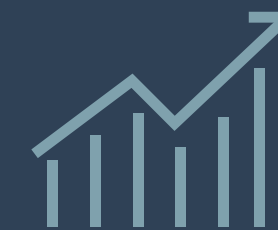

Trade Balance

A country with more exports than imports may see its currency increase in value

Political Stability

Political instability may weaken a country's currency

Inflation

Increase in general prices of goods and services decreases the power of money
